

**POSTOPERATIVE INSTRUCTIONS FOR SMALL PROCEDURE**

- Please keep the wound dry
- If there is any bleeding, please apply pressure with a damp cloth for 5-10 minutes
- If Dr. Agarwal advised you to do so, please use a small dab of Neosporin/over-the-counter antibiotic ointment before bed
- If your skin was patched by Dr. Agarwal, please maintain the patch until otherwise advised
- Tylenol may be used for discomfort
- You may shower from the neck down; do not run water onto the wound
- Small amounts of bleeding, tearing, or discharge is normal
- If vision loss or excessive bleeding is noted, please call the office at (949) 441-5058 or head to the Emergency Room immediately
